Newsletter Issue 7 What's New with Us...

Cyber Security Upgrade

Now the dust has begun to settle on the new GDPR regulations, it has emphasised the importance of a secure environment for your data. In response to this, in addition to our existing Endpoint security, we have been working in conjunction with a Cyber Security specialist situated in the Plymouth Science Park to introduce a state of the art Host Intrusion Detection System. Put in simple terms, this permanently protects all your applications and data held on our servers against known and emerging cyber threats and, in the unlikely event of a data breach, enables unauthorised system activities to be tracked for data breach reporting.

Microsoft Office 2016 is now ready for deployment.

If you would like to upgrade then please let us know by emailing jan@microshadevsm.co.uk

Local Council Community Cloud

Smart Phones and Mobile Device Security

With the dramatic increase in the use of smartphones and tablets to connect to our home and office networks there is an urgent requirement to use the Internet over secure networks. These devices learn and hold large volumes of sensitive information about the owner and their contacts, and can be used to access organisational data and services. Mobile devices are inherently losable, attractive to thieves, and vulnerable to hackers and malware.

GDPR requires rigorous data security - don't let a mobile device be the source of a data breach. Microshade VSM offer a managed security solution to protect your organisation's Android devices or those used by your staff to carry out your business.

Local Council Transparency Portal

Microshade VSM have developed the perfect vehicle where officers can easily post one or many documents on the Internet with a single mouse click. The portal can be personalised with council banners, titles, icons, fonts and colours, optional pictures and introductory text about the Parish can all be published instantly.

Modern.Gov — We are proud to be able to offer hosted Modern.Gov for the local council market.

Check our website for more information!

Sponsorship of Local Branch Meetings

Over the past 2 years we have been actively supporting SLCC local branch meetings by sponsoring the event and delivering an informative presentation on Cyber Security. The delegates take away simple steps to protect their Council data.

If you are active within your local branch and you have a meeting topic to fill contact Maxine or Jan on enquiries@microshadevsm.co.uk to book us in.

GDPR Advisory Service

Although the appointment of a DPO (Data Protection Officer) is no longer mandatory on-going compliance with GDPR is. With this in mind please contact us for details of our specialist GDPR help and advice service: paul@microshadevsm.co.uk

Update on our Technical Support Team

We are pleased to announce that George has successfully completed his apprenticeship and has joined us as a full time member of the support team.

‘ Microshade VSM has not only provided us with an efficient, up-to-date and economic way of managing our IT, but has also given us peace of mind...’

Karen Wright, Town Clerk, Lytchett Minster and Upton
